Captain GG 
by Long Time Airline Pilot – Jul 24, 2014

I can thoroughly recommend this app for any pilot, but in particular student pilots. Anybody pilot who wonders why they, "are not just getting it right" need this app. Full of fabulous detail, The Jacobson Flare App will improve any pilots approaches and landings - and you will know the exact reason why!! Incredibly good value! Best app I have ever purchased - by far!! Signed, A 23,000 hour heavy jet Captain.
