

The Landing as a Learning Process

Head-based learning is applied to:

- All other standard training sequences – and
- The Jacobson Flare

Head-based learning is:

- Technically factual
- Conscious
- Measurable
- Consistent
- Predictable
- Universally applicable
- Training course to learn

YET “We’ve always done it this way” for Landing Training:

- “About here”; “About now”
- Practice – ‘circuits and bumps’
- Develop judgement through repetition
- “You’ll get better with experience”
- Getting the ‘hang’ of it
- Getting the ‘look’ of it
- Getting the ‘feel’ of it

Heart-based learning is

- Spontaneous
- Unconscious
- Not measurable
- Inconsistent
- Unpredictable
- Single in application
- Hard to learn through repetition and experience
